Which Shall Be Played on Potomac Park?

DISCUSSED AT MEETING

Devotees of Both Games Express Views Before Federation of Citizens' Associations.

Will it be golf or base ball on the greensward of Potomac Park? Or will it be neither one? Those are among the questions to be looked into by committees of the Federation of Citizens' Associations, which held a meeting to the Chamber of Commerce last night. Col. Spencer Cosby, in charge of the office of public buildings and grounds, soon will be asked to decide on this, and his answer will be laid before the detegates of the various associations represented in the federation.

Dr. F. L. Duniop, who is Dr. Wiley's assistant at the bureau of chemistry and who represents the Takoma Park Citizens' Association, favors golf on Potomac Park. It was he who introduced to the federation last night a letter from his home body asking for the indorsement of the game on the greens of Potomac Park. But it was Allan Davis of the Southeast Washington Citizens' Association, from the section which once fostered "the commons." where the three-bagger was known ere Col. Bogey three-bagger was known ere Col. Bogey and the brassie were heard tell of, who arose and defended the good old American game of base ball.

"In every big city there are many golf enthusiasts," spoke Dr. Dunlop, "and there are many here. Numbers of them would like to play the game, but are deterred by the great cost of playing at a club. There are the dues, initiation fee and, besides, there are other expenses."

Favors Public Course.

"But," he continued, "there are many golfers who would support a public golf course for a small fee which would maintain the grounds. Now I understand that in Rock Creek Park a public golf course has been laid out, but is not in playing condition. It would seem that Washing-ton needs a public golf course, and I have heard that there is a sentiment toward placing one on Potomac Park."
Whereupon arose Mr. Davis from the

"Let it not be said that the American game shall be interfered with for golf," said he. "I understand that Col. Cosby has given over the playing grounds to numerous small base ball teams. I would not like to be a party to any movement to make a golf course out of a public base ball diamond. And with that defense of the great

American game, the matter went into the hands of a committee. For the second time in the history of the organization, the method of taxation and assessement in the District was severely assailed. This time the criticism on the assessment system arose from a request from the Piney Branch Citizens' Association, presented by E. S. Clarkson, to investigate the latest assessment.

Assails Assessment System.

E. W. Oyster of the Petworth Citizens' Association, who has consistently argued for a reform in assessment, again presented his views to the effect that the whole District of Columbia is badly assessed. This matter was not closed, but will be opened for further discussion at

· Constitutional amendments concerning a change in the representation from citlaid over. The federation also took the opportunity of arranging to push the 'loan shark' bill in Congress, The members present were E. S. Clarkson, Allan Davis, William McK. Clayton, Leon Dessez, James W. Dyre, Dr. F. L. Lunlop, W. N. Cromwell, E. W. Oyster, J. G. McGrath and D. A. Edwards.

NEW YORK CITY CHARTER TO UNDERGO CHANGES

Amending Bill, Approved by Mayor Gaynor, Before the State Legislature.

ALBANY, N. Y., April 1 .- The creation of two new municipal departments-engineering and architecture-and radical changes in the names and functions of four other departments are provided for in the proposed new charter for New York city, now before me legislature, the text of which was made public today. The proposed charter has the approval of Mayor Gaynor and contains numerous provisions which, in his opinion, will tend to correct existing defects in the city administration.

Principal Changes.

Chief among the changes are the shearing of the city controller of many of his powers, the creation of a small board of education with salaried members, the enlargement of the mayor's powers and the bestowal of undivided authority upon the fire commissioner in the regulation of fire escapes and other fire appliances. To the fire department the charter gives a wide supervision over the equipment of buildings with life-saving and fire-preventing appliances, independent of the building department, and the latter is given wider authority in the supervision of buildings. The most salutary and farreaching provision declares that fire traps are nuisances, which the fire commis sioner must abate.

Becomes City Treasurer.

The city chamberlain is to become a city treasurer, and from the controller's esda, Md., Friday morning. He was jurisdiction he will take the collection of sixty-six years old. making the city treasurer one of the the Center market, where he obtained Mr. Foster, in response to a call from most important of city officials, while the a supply of carnation roses, for a numcontroller becomes merely a city auditor. ber of years. Denton, Caroline Co., Md., Box 202.

Shortly after the Christmas holidays the familiar face of "Dr." Baker disappeared from the business section of the city. He had met with an accident while the pavements were slippery and had fractured one of his legs.

The patient was treated at the Casualty Hispital. After he had been in the hospital some time he was taken to the home of his nephew, his condition having become such that it was realized he could not recover.

C., have been one son, Joseph B. Baker, ir., died in Kansas. Mrs. Baker died in Nebraska and her body was buried there.

"Dr." Baker was practically without funds when he returned from the west.

"Besides her husband, two daughters, Mrs. that the statement of the representative of the Amalgamated Society of Carpenters was from his organization only, and does not in any way affect the United the store of S. Kann, Sons & Co., will Brotherhood of Carpenters and Joiners of it is stated, and he found it necessary be closed tomorrow.

CARPENTERS MAINTAIN ORIGINAL AGREEMENT

Brotherhood Continues to Work at 50 Cents an Hour, Ignoring Advance.

Notwithstanding the announcement by the Amalgamated Society of Carpenters employed by the Builders' League and Master Builders' Association would remembers of the United Brotherhood of Carpenters and Joiners of America will continue to stand by their agreement to work for 50 cents an hour, with a fortyfour-and-a-half-hour week.

Statement by Secretary.

C. B. Byrne, secretary of Local Union son, president of the association, the ban- 132 of the United Brotherhood, issued "We desire to announce that the state-

ment of a representative of the Amal-Master Builders, to go into effect April 1. 1911, after a postponement of nearly two months, is correct, regarding the Amalgamated Society of Carpenters. The United Brotherhood of Carpenters and Joiners of America, which has been requested by the Amalgamated Society of Carpenters on two occasions to join in this proposition, has, however, notified the amalgamated society that we are to stand pat by our proposition of 50 cents per hour and forty-four and a half hours 132. United Brotherhood, at a special meeting held January 31, 1911.

Notice to Contractors.
